Helena, Montana
November 21, 1936

To the Honorable Board of Examiners,
Helena, Montana

Gentlemen:

Pursuant to Section 297, Revised Codes of Montana, 1935, we hand you herewith the 1937 Legislative Budget.

During the past few years many states and governmental agencies have requested information concerning revenues, costs and other financial data of our State government. For this reason we have provided considerable information along this line.

We are pleased to report that even though new bonds, in the amount of \$1,800,000.00 were sold during the last biennium, our total bonded debt is less than it was at the beginning of the biennium. This is also true of our floating debt. The General Fund debt was reduced approximately fifty per cent, while the University millage fund had a balance on June 30, 1936.

In the past certain portions of the revenues from licenses and production taxes have been allocated to special funds for the purpose of providing funds for water conservation, relief and other purposes. The Constitution provides that all taxes levied for State purposes shall be paid into the State Treasury and no money shall be drawn from the treasury but in pursuance of specific appropriations made by law (Section 10, Article XII). The twenty-third Legislative Session issued refunding bonds and pledged the license taxes together with all property tax as security. To impair this security will violate Section 2 of Article XIII of the Constitution.

In compiling the estimated revenue for the General Fund we have used the laws which are now in effect and which may be found on page ten of this budget.

While the law does not designate the distribution from profits of liquor after March 1, 1937, we have added fifty per cent to the estimated revenue for the General Fund, with the hope that the two mill property tax can be eliminated. We believe, on this basis, the overdraft of the General Fund can be wiped out and proper appropriation for all departments be provided.

Increased appropriations are requested by nearly all departments and institutions. Fifteen new buildings have been constructed, or are under construction, which will require additional appropriations for operation. Part of the income which had heretofore been used for operation are now required to be set aside for interest and sinking. Additional appropriations will be required to replace this loss.

Respectfully submitted,
STATE BUDGET OFFICE

By

William Hosking,
State Accountant.

Vocational Education, U. S. Aid	\$ 9,000.00	\$ 9,000.00
---------------------------------------	-------------	-------------

The above figures do not represent all expenditures made by the Bureau in the two year period covered. Supplementing our State and Federal appropriations was an allotment of \$13,766.54 from the FERA, all used for rehabilitation purposes, but for which a separate accounting was made.

During the fiscal year ending June 30, 1935, we spent \$2,158.00 of this special fund for maintenance, \$3,504.28 for tuition, \$902.82 for tuitional supplies and \$455.00 for artificial appliances. In the following year \$5,075.20 of relief money was expended for maintenance, \$425.66 for tuition, \$304.70 for tuitional supplies and \$85.00 for artificial appliances.

Relief allotments have ceased and will not be resumed. It is evident from this that our regular appropriation must be substantially increased to insure adequate service to the handicapped persons the Bureau was established to assist.
